

Bionique Testing Laboratories Expands Executive Leadership Team: Adds Commercial Expertise

FOR IMMEDIATE RELEASE:

Saranac Lake, February 6, 2018 – Bionique Testing Laboratories, Inc. has announced the expansion of its executive leadership team with the addition of commercial expertise. Bionique Testing Laboratories announced today the addition of Steve Pemberton to its management team, as Vice President of Business Development will be responsible for the commercial expansion of Bionique Mycoplasma testing services to existing clients, new customers, and industry partners.

"I am excited to welcome Steve to Bionique, and have his help in fueling the demand for our testing services", said Jill Mariano, President of Bionique.

"This seasoned executive brings years of industry expertise to Bionique at this pivotal point where the advent of novel treatments such as cell therapies for critical diseases and conditions, like cancer, is driving the exponential demand for mycoplasma testing."

About Steve Pemberton:

Steve Pemberton is a commercial executive with strategic marketing, business development, sales leadership, and sales experience. Previous to Bionique, Steve operated a successful consulting business where helped guide the commercial efforts for other early stage ventures. Previous positions have included executive level positions at Rheonix, Inc., a manufacturer of molecular diagnostic devices, where he was Vice President of Marketing and Sales, responsible for business development, marketing, and sales. Steve has held prior leadership, marketing and sales positions at Abbott Laboratories and Roche Diagnostics.

Company Overview:

For over 26 years, Bionique Testing Laboratories, Inc. has been a leading global provider of Mycoplasma Testing Services for the biopharmaceutical industry. Bionique offers the full breadth of services from the Lot & Final Drug Product release testing per regulatory guidelines to a GMP compliant Real-Time PCR assay to support clients' needs from concept to clinical trials and commercialization for biopharmaceutical and cell therapy products. Bionique's experience and expertise extends to development and validation of rapid microbiological methods to generate real time results. Additional services such as regulatory and compliance consultancy add to Bionique's unique position in this niche analytical testing space. Located in Saranac Lake, NY, Bionique is a FDA registered and GMP compliant contract testing facility. Bionique aims at offering unsurpassed quality mycoplasma testing services to meet the custom scientific and regulatory needs of each client and partner.
